

EPIC® Connector Accessories

Quick & Easy Din Rail Adapters

The Quick & Easy system greatly simplifies mounting a wide range of EPIC® connectors onto standard DIN rail without the added cost of housings. The system can be purchased as one complete unit or the upper and lower portions can be purchased separately. The upper portions come in 4 different sizes to accommodate HBE, HD, HDD, HEE, HBS, HBVE, Modular (MC) contact inserts. The bottom portion of the system adjusts to accommodate all

4 sizes. The system components lock into place via snap hooks and are directly mateable with existing systems. The slider latch allows for the quick removal and attachment of the base from the DIN rail for wiring. Also, the unit can be labeled in three places with printed or handwritten labels. A special coding set with key pin will allow for coding of the inserts to prevent mismatch of side by side mounted connectors.
