

SKINTOP® DIX-M BUSHINGS

Multiple Cable Sealing Bushing for Metric and Metal NPT SKINTOP® Cable Glands

SKINTOP® DIX is a multiple hole sealing bushing designed to allow several cables to be inserted through one cable gland. This results in a reduction of space and cost, as a separate cable gland is not required for each cable.

Technical Data:

	Materials:	NBR (Rubber)
	Temperature:	-40°C to +100°C
	Seal:	IP 54 IP 68 when all holes are optimally filled.

Special shapes available on request. Consult factory for details
